We are taking a different approach to raising the necessary funds for the ministry of HBC. Everyone cannot give at the same level, but can give at some level. We would like to move from the concept of giving a one time annual gift to giving on a consistent monthly basis.

Our goal is to raise over one million dollars annually. To accomplish this task, we need 1660 donors, within the next 4 years, to join the club. If 1660 faithful donors give at the various levels as outlined in the diagram, what seems to be an impossible dream actually becomes an attainable reality.

This would allow HBC to “turn our struggling into striving” as we press towards the goal of training men and women to be Christ Centered, Building Godly Character and be Committed to Ministry.

Will you join Club 1660?
